Revised MEN'S ATTITUDE SURVEY (the RMAS)

As before, this questionnaire is intended to assess and track your attitudes, beliefs and other factors that might influence your sexual and other risky or risk-reduction practices in the age of Highly Active Anti-retroviral Therapies (HAART). We have taken out some of the questions that we believe are no longer essential and added in new questions to measure current attitudes and beliefs that we feel may contribute to your decisions and relationships.

Please tell me about your relationship with your primary or steady sex partner.

1. Do you have a primary or steady sex partner?

- No (*Skip to Question 5*)
- Yes

2. Have you and your primary partner discussed rules for having sex with other people?

- No (*Skip to Question 4*)
- Yes, discussed topic but no rules established (*Skip to Question 4*)
- Yes, discussed topic and rules were established
- Yes, discussed and we decide on a case by case basis

3. The rules my partner and I agree on for sex with other people are (check all that apply):

- No sex of any kind outside the relationship (mutually monogamous primary relationship)
- Anal sex with others permitted, but only with a condom
- No anal sex with another man but oral sex with another man OK
- No anal or oral sex with men outside the relationship, but other sexual behaviors (example: body rubbing, handjobs, etc.) OK.
- Sex with other men only when both of us are involved (3-ways, small group sex)
- We decide on a case by case basis
- We must inform each other about any outside sex
