   ____________SGRTPB_752  ____________

PROMPT: Read to Participant:
I'd like you to take your dominant arm, bend your elbow at a 90 degree angle, press your arm against your side, and grab the two pieces of metal together like this. (EXAMINER SHOULD DEMONSTRATE AT THIS POINT.) When I say “squeeze,” squeeze as hard as you can until I say “stop.” The two pieces of metal will not move but I will be able to read the force of your grip on the dial. I will ask you to do this three times. If you feel any pain or discomfort, tell me and we will stop. (DEMONSTRATE TO PARTICIPANT.)

Now you should bend your elbow at a 90 degree angle, press your arm against your side, and grip the two pieces of metal with your dominant hand. Your wrist should be straight. Ready? Go! (BE SURE TO COACH: “Squeeze, Squeeze, Squeeze!” ALSO BE SURE TO TELL THE PARTICIPANT TO “Stop!” WHEN THE ARROW STARTS GOING DOWN.) DO DOMINANT HAND ONLY.
